Bredel

Hose Pumps

Bredel QLINE 20

Low-pulsation pumping, redefined

Introducing QLINE 20, a new higher-flow, low-pulsation peristaltic pump for chemical dosing and fluid transfer.

WATSON MARLOW Fluid Technology Solutions

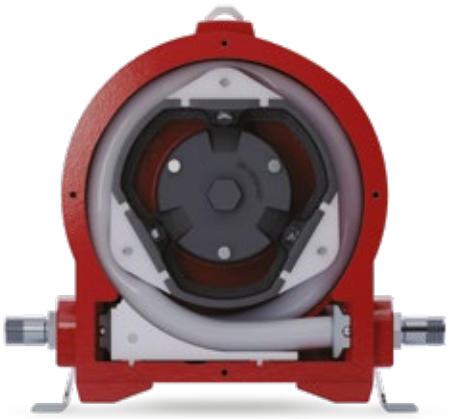

Key benefits

- Higher, smoother flow without increasing installation space
- Improved dosing accuracy with real-time flow measurement and reduced pulsation
- Quick in-situ tube replacement increases uptime and supports safer maintenance
- Reduced pressure fluctuations help extend equipment lifetime and lower maintenance costs
- Broad chemical compatibility and high turndown capability support a wide range of applications

Ideal for chemical dosing and fluid transfer

QLINE 20 is suitable for a variety of abrasive and challenging applications, including:

- Lime
- Mining reagents
- Flocculants and coagulants
- Inks, paints and pigments
- Polymers
- Powder activated carbon

QLINE 20 at a glance

Flow rates up to **554.8 USGPH** (2,100 L/h)	Dry running and self-priming
Pressures up to **102 psi** (7 bar)	Wide speed range
TPU and Santoprene tube elements	

Explore the benefits of smoother flow, improved accuracy and increased application flexibility with QLINE 20.
