

Features and benefits

- Sustainability benefits: BioClamp is manufactured to be 13% lighter than the previous model, with a 26% reduction in carbon emissions.
- Easy to install and use: Functional design of the BioClamp's closure mechanism simplifies the set-up of your assembly process and enables quick changeovers.
- Repeatability and product performance assurance: With a secure attachment of sanitary fittings and tubing, BioClamp enables process repeatability.
- Competitive pricing: Competitive bulk order prices are available due to highly efficient manufacturing methods.
- Regulatory compliance: BioClamp is manufactured in ISO 14644 class 7 cleanrooms within a facility operating an ISO 9001 quality management system.
- Supply security and local support: Global manufacturing and supply network provides supply assurance. Local technical support also available.

Technical specifications
