

High level sensor

High level sensor

Features and benefits

- Detects when the maximum level of fluid is reached within the pump
- Prevents overfilling and potential spills, ensuring operational safety and environmental protection
- Triggers an alert or pump shutdown to avoid damage to the pump and surrounding equipment
- Contributes to sustainable operations by preventing waste and preserving resources
- Reduces the risk of costly downtime and maintenance associated with overfilling incidents

Technical specifications

	High level sensor
Operating temperature	-4 °F to 140 °F (-20 °C to 60 °C)
Ambient temperature	-40 °F to 167 °F (-40 °C to 75 °C)
Ingress Protection	IP65
Power supply	Max. 40 VA
Supply voltage	Max. 230 V AC/DC

	High level sensor
	PVC
