

400/L tube elements

Tubing for panel mount pumps

Features and benefits

- Consistent and accurate flow rates
- Optimized tube life
- Tubing elements are optimal fitted to the design of each pump type

Technical specifications

	400/L tube elements
Wall thickness	0.06 in (1.6 mm)
Compatible pumps	400F/L2

	400/L tube elements
Tubing	PVC, Thermoplastic elastomer
